Elias Eulig

(+49) 176 503756660 | Obere Neckarstraße 14, 69117 Heidelberg, Germany | elias@eulig-hannover.de

Personal Data

Date of birth	September 30, 1995
Place of birth	Hanover, Germany
Citizenship	German

Work

2020 **Machine Learning Intern** *Bosch Center for Artificial Intelligence, Stuttgart, Germany*
in the Rich and Explainable Deep Learning group, working on shortcut learning in DNNs.

2020 – present **Machine Learning Researcher** *RayConStruct, Nuremberg, Germany*
working on deep learning-based image reconstruction techniques for hold baggage explosives detection scanners.

2018 – 2020 **Student Researcher** *German Cancer Research Center (DKFZ), Heidelberg, Germany*
in the X-Ray Imaging and Computed Tomography group under supervision of Prof. Dr. Marc Kachelrieß with main focus on the development of deep learning-based methods for CT and x-ray imaging applications.

2017 – 2018 **Student Researcher** *Max Planck Institute for Brain Research, Frankfurt, Germany*
in the Department of Connectomics under supervision of Prof. Dr. Moritz Helmstaedter, working on several deep learning-based methods for connectomics.

2016 **Teaching Assistant** *Ruprecht Karl University, Heidelberg, Germany*
for physics for medical students at the Heidelberg University School of Medicine.

2013 – 2014 **Voluntary Scientific Year** *Laser-Zentrum-Hanover (LZH), Hanover, Germany*
in the Laser Development Department working on the *MOMA (Mars Organic Molecule Analyser)* project under supervision of Dr. Christian Kolleck and Dr. Jörg Neumann.

Education

2019 – 2020 **Master's Thesis** *DKFZ, Heidelberg, Germany & Stanford University, Stanford, USA*
on *Deep Learning-Aided CBCT Image Reconstruction for 4D Interventional Guidance* in a joint project between the Kachelrieß group at the German Cancer Research Center and the Wang group at Stanford University.

2017 – 2020 **M.Sc. in Physics** *Ruprecht Karl University, Heidelberg, Germany*

2017 **Bachelor's Thesis** *Max Planck Institute for Brain Research, Frankfurt, Germany*
on *Matching of Axonal Fragments using Their Morphological and Synaptological Properties* written in the Department of Connectomics under supervision of Prof. Dr. Moritz Helmstaedter.

2014 – 2017 **B.Sc. in Physics** *Ruprecht Karl University, Heidelberg, Germany*

2013 **Abitur (A-levels)** *Wilhelm-Raabe-Schule, Hanover, Germany*

2005 – 2013 **Secondary School** *Wilhelm-Raabe-Schule, Hanover, Germany*

Scholarships & Awards

2020	**Master's Thesis Award** by the *German Society of Medical Physics (DGMP)* for an outstanding Master's thesis in the field of medical physics.
2020	**SPIE Student Travel Grant** to present the publication [4] at the SPIE Medical Imaging 2020 in Houston, TX.
2019	**Travel Scholarship** *(PROMOS)* of the *German Academic Exchange Service (DAAD)* for the period of research at Stanford University.
2019	**Travel Scholarship** of the *Society of High Performance Computational Imaging (SHPCI e.V.)* for the period of research at Stanford University.
2019	**Best Scientific Paper Presentation Award.** The conference contribution [7] received the *Best Scientific Paper Presentation Award within the topic Artificial Intelligence and Machine Learning* of the ECR 2019.
2013	**Best Abitur in Physics Award** by the *Deutsche Physikalische Gesellschaft (DPG)*.

Languages

German	Native proficiency
English	Full professional proficiency (C1 level)
French	Elementary proficiency (A2 level)

Computer Skills

Proficient with *Python*, *PyTorch*, *Matlab*, *git*, and *R*.

Familiar with *C++*, *TensorFlow*, *Mathematica*, *LabVIEW*, and *SolidWorks*.

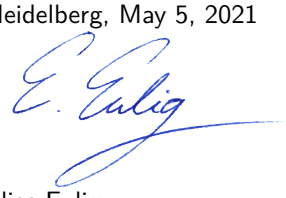
Experience running applications on high-performance computing clusters using the workload managers *Slurm* and *LSF*.

Extracurricular Activities

Active member of the German Social Democratic Party (SPD) and this party's student group.

Various activities as delegate and official in sessions organised by the European Youth Parliament (EYP).

Heidelberg, May 5, 2021



Elias Eulig

Publications

[1] J. Maier, S. Lebedev, **E. Eulig**, S. Sawall, E. Fournié, K. Stierstorfer, and M. Kachelrieß, „Coronary Artery Motion Compensation for Short-Scan Cardiac CT Using a Spatial Transformer Network“, in *6th International Conference on Image Formation in X-Ray Computed Tomography*, Aug. 2020.
